# HIGH BAY LUMINAIRES

Amidst growing energy concerns and sustainable development becoming a mainstream trend, LED high bay lighting has emerged as a compelling demand due to its stable quality, longer life span and superior energy efficiency. The pricing for high bay lights has dropped a lot compared to years ago, our partners face pressure to maintain reasonable profits while delivering customer-centric solutions, so General Technics designed a series of solutions that not only meet but surpass customer demands, ensuring their success in the market.

EVERLITE

# HB73 Ecolux

Ecolux is an economical and compact design high bay light, with the optimized heat sink structure, the 4 power 100W/150W/200W/240 and 4 size compact design saves cost and freight, power selectable easy for stock and quick delivery, 160lm/W or 200Lm/W different efficiency for optional to meet different budget.

# SPORTS LUMINAIRES

High-quality lighting is key to enhancing performance and viewer experience in sports. General Technics delivers super professional lighting solutions with considerations for weight, dimensions, optical design, spill light control, durability, and smart systems.

Our versatile luminaires guarantee optimal illumination for events of all scales, from local games to international tournaments. Choose General Technics for reliable, high-performance sports lighting that transforms every game.

# SP04 Valusport

Valusport is our top-selling economical sports luminaire. Its lightweight, compact design and modular construction resolve common installation issues, such as pole load-bearing and wind resistance. This makes it a convenient and reliable choice for clients seeking cost-effective and efficient lighting solutions.
